SILVERTUNE

HARD PITCH CORRECTION FOR LINUX

SILVERTUNE

A real-time CLAP audio plugin for Linux that locks your pitch to the nearest note in any chosen key. Instant, merciless, and musical. The Cher effect. The T-Pain shimmer. The robot in the mirror singing back at you in perfect tune. Licensed under GPLv3.

SILVERTUNE PEDAL

PITCH CORRECTION IN HARDWARE

SILVERTUNE PEDAL

Silvertune in hardware. The same pitch correction algorithm built into a pedalboard-ready enclosure. Plug in, choose your key, and sing in tune. Licensed under GPLv3.

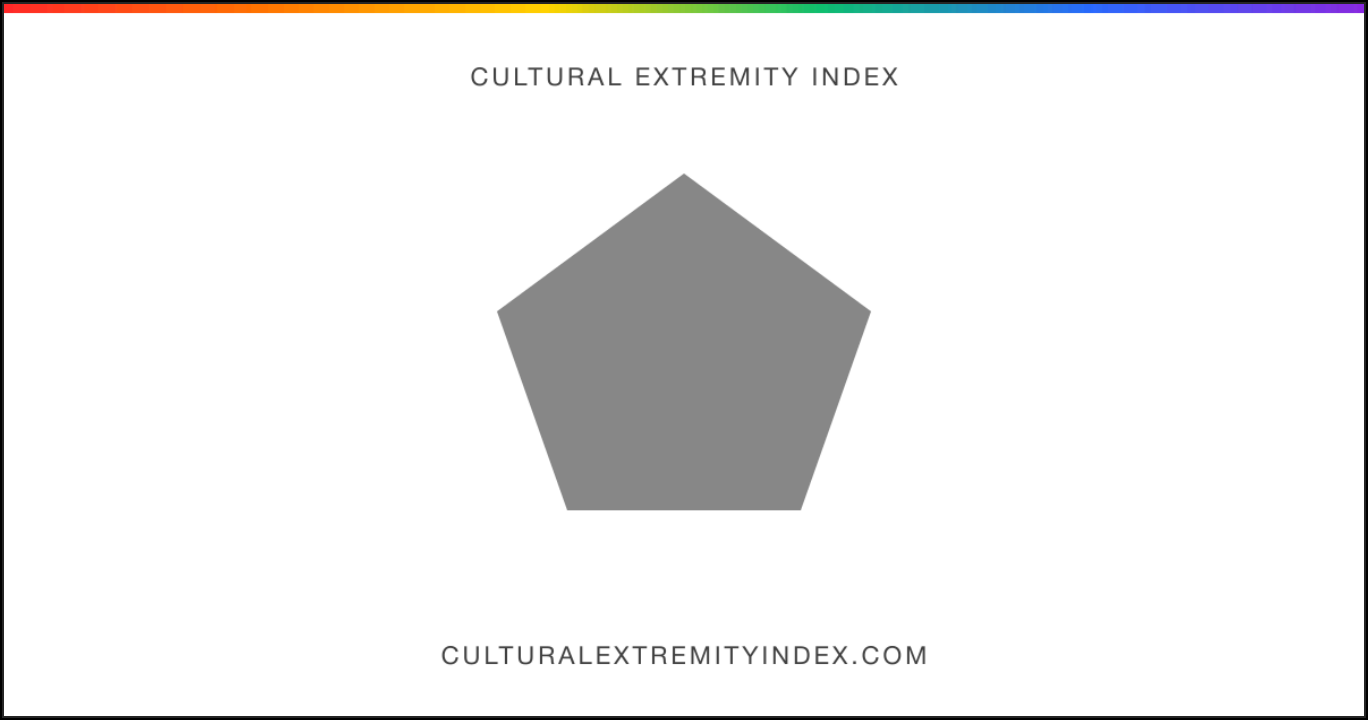
CULTURAL EXTREMITY INDEX

HOW EXTREME IS YOUR TASTE?



A tool for measuring how far outside the mainstream your cultural taste runs, across music, film, and more. Built to answer the question nobody asks but everyone wonders. Licensed under GPLv3.
