SILVERTUNE

HARD PITCH CORRECTION FOR LINUX

SILVERTUNE

A real-time CLAP audio plugin that quantizes every note you sing to the nearest tone in your chosen key — instantly, mercilessly, beautifully. The Cher effect. The T-Pain shimmer. The robot in the mirror singing back at you in perfect tune.

SILVERTUNE PEDAL

PITCH CORRECTION IN HARDWARE

SILVERTUNE PEDAL

A hardware implementation of the Silvertune pitch correction algorithm. The same hard-tune effect — instant, merciless, in a box you can put on your pedalboard.

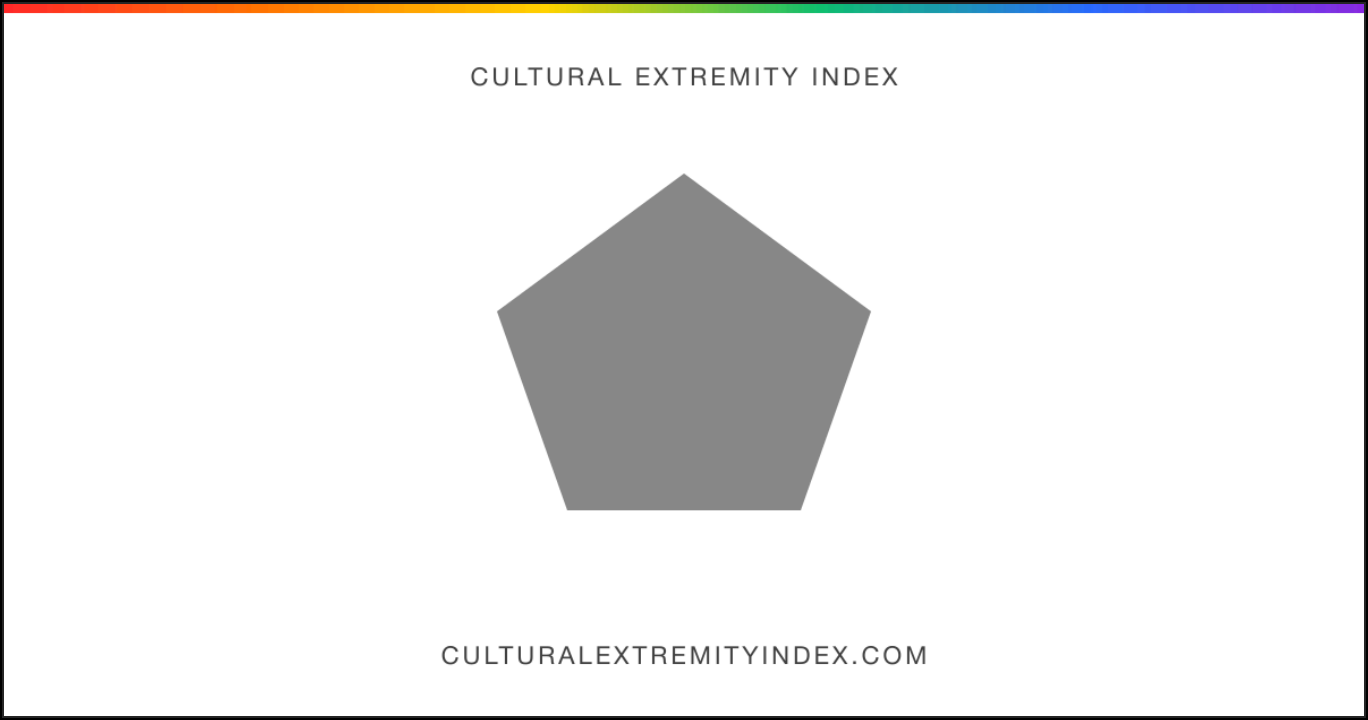
CULTURAL EXTREMITY INDEX

HOW EXTREME IS YOUR TASTE?



A tool for measuring how far outside the mainstream your cultural taste runs — across music, film, and more. Built to answer the question nobody asks but everyone wonders.
